

# CASE-BASED REFLECTIVE PRACTICE 2022

## A Saturday Morning Monthly Balint Group For Doctors, Psychologists, Social Workers, Psychotherapists & Counsellors

SATURDAY 9am – 11am

Offering a confidential safe space to reflect on your cases with  
colleagues

Dear Colleagues,

Would you value the opportunity to explore the emotional and relational aspects of your cases? A Balint Group is a type of peer clinical supervision group, with two leaders, who support participants in unpacking a troubling or challenging case while protecting the presenter from intrusive questions or criticism. The focus is on understanding the emotional and psychological dynamics between the clinician and the patient, not on diagnostics, treatment regime or finding clinical solutions.

The Balint Group method is named after Dr Michael Balint, a psychoanalyst who pioneered peer-group discussion for doctors to help understand and manage the psychological aspects and the emotional content of clinician - patient relationships.

### How might a Balint Group benefit your practice?

- A regular opportunity to reflect on clinical cases in a secure space;
- A way of improving our understanding and tolerance of complex patients;
- Learning from colleagues' different perspectives on each case; and
- Refreshing your interest and building confidence in your clinical work.

**DATES:** Saturday 12th February 2022, monthly for 11 meetings, mostly every second Saturday. See these dates: 12/02/22, 12/03/22, 09/04/22, 14/05/22, 11/06/22, 09/07/22, 13/08/22, 10/09/22, 15/08/22, 12/11/22 & 03/12/22.
